Software Sustainability Institute

The Alan Turing Institute

Managed the Ethics Advisory Group's process

Ada Lovelace Institute

Developing recommendations for research ethics committees in data science
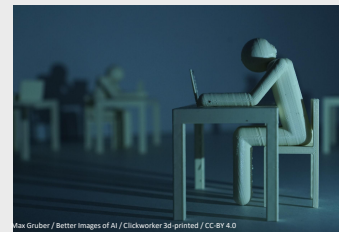

Open Life Science

Currently ensuring the project meets best open science practices

We need case studies to better reflect on research ethics!

## Example Stories for Software Development

Haber & Stornetta's *How to Time-stamp a Digital Document* influenced the moral values underpinning blockchain technology.

1991

Max Gruber / Better Images of AI / Clickworker 3d-printed / CC-BY 4.0

1855

Florence Nightingale uses data visualization techniques to convey the need for medical supplies in the war (currently being written by Vipul Vivek).

Gerardus Mercator's world map would introduce us to "Mercator Projection", whereby land masses look larger the further they are from the equator.

1569
